## MAKING MONEY WITH PTC

So everyone knows ptc.i think I don't need to say much more about it.but I am going to post some tricks to earn some quick cash

So you might have encountered some sites that forces user to stay on page(some social exchange sites do this too) so here is a quick trick to bypass it

Download tamper data or grease monkey and use this script

<http://userscripts-mirror.org/scripts/show/486986>

just edit the "YOURSITE.COM" to your site and you are done.now you don't have to worry about focus anymore. cashnhits is the site I use for this trick

Another one of the trick is that you can view premium ads too (Thanks to **IVLordStorm from a2s.in**)(this works only on some sites)

You must have seen that there are ids of ads in the url

For example

[www.domain.com/ptcclick.phpid=885](http://www.domain.com/ptcclick.phpid=885)

so just change the id to premium one .lets suppose the premium id is 990 so change 885 to 990.Now you must be thinking where to find the premium ids?here is the best part. Some sites show their premium ads when user is not logged in to their accounts.so just get the ids from there

Now there is another trick to visit ad again and again.and earn too many bucks with just single ad

U see the id is 885 no just add 0 before it so the id will be like 0885 .this will visit the same ad again and u will get paid for it (although this works only on some sites.so make sure to try this on each site :D)

## THE BEST PTC TRICK

Here comes the lazy part.most of you are lazy to click ads .so why not a bot let it do for you?but remember there is a chance that you will get banned too.

<http://www.multiclicker2.org/>

download the bot from here and plugins from here

<http://clickers.info/articles.php?c=1>

well I am not going to show the whole tutorial on how to use this app because it will just make the ebook more lengthy .so just watch their tutorial section

## Another trick

Since you have seen that there are ptp in ptc sites too without any timer.so this trick will work here too
