# What is a Fiverr?

*Fiverr is an online marketplace like Amazon. But here people do not sell products like (T-shirt, Lipstick, bla bla bla...).*

*Ok that's all you need to know about Fiverr.*

*Here is an example  
of ClickBank Niche  
Research. I made  
this photo to  
attract the buyers  
using [Canva](#).*

# Offering to Buy Website

*Here is our main Idea.*

*After submitting the work ask them to buy a website.*

*As they are doing affiliate marketing They must need a website. So, offer them to buy a website related to their niches.*

***What you're going to do is sell them either an Amazon affiliate site, Clickbank review site or an AdSense micro niche site.***

***Since the buyer has no web presence, it would seem they have no idea how to make a site or monetize one.***

***All you need to do is provide them a professional service stating that you could create a site for them. The best price for a website is 275\$.***

***Here is a message I send once I complete an order:***

***“Hey ‘BUYER NAME’,***

***I noticed you don’t have a website. Now that the niche and keyword research is done, you’ll need a site to start profiting. I am proposing to make you a profitable site that is on complete autopilot. Once you have the site made, you simply set and forget it and start making commissions. If you’re interested in such a site, contact me and I’ll help you get started.***

***Regards,***

# Making Website

*The easiest way to make a website is do outsourcing.  
Just find a professional web designer on Fiverr. Don't even  
think to buy a Gig. Just ask for a custom website.*

*There are lots of seller, I suggest you to buy from  
[sajidmahamud835](#). He is not only a professional marketer and  
web designer also and most important that he is my friend. He  
will offer you **a website for 100-120\$** only and mention my  
name (Alex), if you want to get more discount.*

# Make Your Gig Viral

*The best way to get more buyers is **making an explainer video**, and put it to your Gigs. You can make it yourself or buy from Fiverr. There are many sellers on Fiverr, just need 5\$ to start. I would recommend [this guy](#) for best service.*

*Don't forget to make backlinks. Try to make 1000+ social media or blog post backlink. Or can buy a Fiverr web traffic Gig. I personally [use this site](#) to get real high-quality backlinks.*

***Now you just only need a 5-star review to make people trust you. Just ask one of your friends to open a Fiverr account and buy your 5\$ Gig. Pay him 7\$, (2\$ is the processing fee). Now wait and count your profit. This is very easy; you need to just do copy past work.***

***Now count your total investment. 48\$ for this method, 5\$ for video, 5\$ for backlinks, 2\$ for review. Total 60\$ investment.***

***I will give you full refund if you cannot earn at least 120\$ within 60 days. And hope you will earn 250\$+ a day with this.***

# *The plan*

***Create Fiverr Gigs  
On keyword research.***

***After  
submitting  
work, offer to  
buy a website.***

***Buy a website from  
Professional & sell it to  
buyers for 275\$.***

***Thanks for purchasing my  
method!***
